

# 490 Aptitude™ Open Front Student Desk

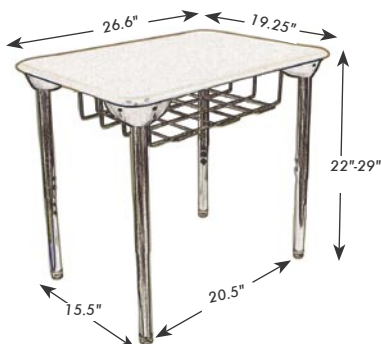

Available without bookrack.

## DESK FEATURES

- Large work surface (510 square inches) • Heavy-Duty steel legs and inserts • molded leg receiver • #4 steel wire welded bookbox • High-quality solid melamine top
- Long-ferrule inside holding self-leveling nylon glides • K-D shipping design takes up less space • Dual locking-bolt insert attachment • Quick assembly requires no tools • Factory set height between 22"-29" inches

## OPTIONAL

- Available without bookbasket •

We designed a desk with an extra-large work surface (510 square inches) that ships knocked-down and requires no tools to assemble. It has a large bookbox for material storage and ships @ 2.15 cubic feet per unit or 1.5 cubes per unit without the bookrack. It has dual locking-bolt style adjustable inserts and self-leveling glides. This is the best open front desk design in years.

## HIGHLIGHTS

- Premium Quality
- Open View Bookbox
- 18-Gauge Chrome Legs
- 4-Gauge Welded Steel Wire Book Basket
- Self-locking Leg Bolts
- Solid Melamine Top Design
- Height Adjustable from 22"-29"
- 26"W x 20"D Work Surface

## Aptitude™ 490 Open Front Student Desk Specifications

**Frame:** Molded receivers are factory anchored to the top via self threading screws inserted into uniformly drilled holes. The mounted receiver houses a 1/4"-20 elevator bolt for attaching legs. To assemble: simply place a leg into the receiver and turn clockwise until hand tight.

**Bookbasket:** 12" x 17" x 5" deep with trimmed and rounded edges. The main structure incorporates four 1/4" C-1008-1010 carbon steel rods, formed as the perimeter of the unit. Six 3/16" C-1008-1010 carbon steel rods are formed 'front to rear' into the storage surface area. The bookbasket is attached to the top at four points with self tapping screws inserted into uniformly drilled holes.

**Legs/Inserts:** Leg-1", 18-gauge, plateable quality steel tube upper. Insert-.86" diameter, nickel/chrome plated tubing with punched holes to receive adjusting screws. Leg adjustment uses self-tapping locking screws which pass completely through both upper leg and lower insert. Legs come pre-set to yield a 29" high work surface when assembled.

**Full Nickel-Chrome Metal Finish:** Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mills (25%-50% more than our competitors) of Nickel-it will not scratch. Our product is chromed on plateable quality tubing after all welding is completed to prevent rusting on unfinished welds.

**Glides:** Nylon or steel, your choice. Swivel design, case hardened steel, super silent deep ferrule. All glides make full level contact with floor. Designed so the maximum

**Top Colors:** Available in Beige Solid Melamine.

**Optional Solid Melamine Tops:** Available in Grey, Charcoal, Oak (not pictured), and Walnut.

**Top:** Solid molded thermoset plastic with smooth molded edges and permanent color throughout thickness. Top is attached using self-tapping screws into ten uniformly drilled holes. Top size is 26" wide x 20" deep x 5/8" thick.

### Warranty:

- Limited lifetime frame warranty
- Eight year thermoset plastic warranty
- Two year finish/wearing parts warranty

**Samples:** Compliance with the specifications and verification of required quality levels may be determined by requesting samples.

**Shipping Weight/Cubes:** 28 lbs./2.15  
Without Bookbasket: 25 lbs./1.5

### Models:

- 490•Adjustable height at 1" increments from 22" - 29".
